

Description

The data presented in the Vaccine Tracker are submitted by European Union/European Economic Area (EU/EEA) countries to ECDC through The European Surveillance System (TESSy) twice a week (Tuesdays and Fridays). EU/EEA countries report aggregated data on the number of vaccine doses distributed by manufacturers to the country, the number of first, second and unspecified doses administered in the adult population (18+) overall, by age group and in specific target groups, such as healthcare workers (HCW) and in residents in long-term care facilities (LTCF). Doses are also reported by vaccine product.

The downloadable data files contain the data on the COVID-19 vaccine rollout mentioned above and each row contains the corresponding data for a certain week and country. The file is updated daily. Data are subject to retrospective corrections; corrected datasets are released as soon as processing of updated national data has been completed. You may use the data in line with ECDC's [copyright policy](#).

Data dictionary

Variable	Definition	Code
YearWeekISO	Date when the vaccine was received/administered. Only weeks are allowed (e.g. "2021-W01").	yyyy-Www
ReportingCountry	ISO 3166-1-alpha-2	two-letter code
Denominator	Population denominators for target groups (total population and age-specific population denominators do not need to be reported and will be obtained from Eurostat/UN). Denominators only need to be reported for TargetGroup = "HCW" and TargetGroup = "LTCF". They should be reported every week for these target groups.	Numeric
NumberDosesReceived	Number of vaccine doses distributed by the manufacturers to the country during the reporting week.	Numeric
FirstDose	Number of first dose vaccine administered to individuals during the reporting week.	Numeric
FirstDoseRefused	Number of individuals refusing the first vaccine dose.	Numeric
SecondDose	Number of second dose vaccine administered to individuals during the reporting week.	Numeric
UnknownDose	Number of doses administered during the reporting week where the type of dose was not specified (i.e. it	Numeric

	is not known whether it was a first or second dose).	
Region	As a minimum data should be reported at national level (Region = country code).	Country/NUTS1 or 2/GAUL1/Country specific
TargetGroup	Target group for vaccination. As a minimum the following should be reported: "ALL" for the overall figures, "HCW" for healthcare workers and age-groups (preferably using the detailed age-groups)	<p>ALL = Overall HCW = Healthcare workers LTCF = Residents in long term care facilities Age18_24 = 18-24 year-olds Age25_49 = 25-49 year-olds Age50_59 = 50-59 year-olds Age60_69 = 60-69 year-olds Age70_79 = 70-79 year-olds Age80+ = 80 years and over AgeUnk = Unknown age 1_Age<60 = below 60 years of age 1_Age60+ = 60 years and over</p>
Vaccine	Name of vaccine. Additional vaccines will be added on approval or as requested.	<p>COM = Comirnaty – Pfizer/BioNTech MOD = mRNA-1273 – Moderna CN = BBIBV-CorV – CNBG SIN = Coronavac – Sinovac SPU = Sputnik V - Gamaleya Research Institute AZ = AZD1222 – AstraZeneca UNK = UNKNOWN</p>
Population	Age-specific population for the country	Numeric

Definitions

- **Healthcare workers (HCW):** refer to those who work in healthcare settings who may come into contact with patients, including clinical administration staff, and home care staff.
- **Doses of vaccines:** refers to the total number of vaccine doses, considering that an additional dose may be obtained from each vial (e.g. six doses for Pfizer BioNTech® Comirnaty).
- **Number of doses distributed** refers to the doses distributed by the manufacturers to the country.
- **Number of doses administered** refers to any individual receiving any dose of the vaccine.
- **Weekly data** refer to:
 - Week of vaccine distribution by the manufacturers to the country
 - Week of vaccine dose administration to individuals receiving any of the first, second or unspecified dose
